

First Announcement

2nd WJS/DVS Conference on Joining Plastics

on 2 November, 2010
at Handwerkskammer
Düsseldorf, Germany

Jointly organised by:

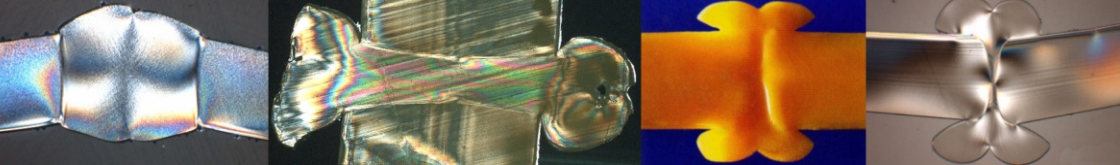

Supported by:

Media sponsor:

International Conference on the latest developments in joining plastics in mass production and fabrication

The specialist world of joining plastics will congregate at the 2nd International "WJS/DVS Conference on Joining Plastics", which will take place at the Handwerkskammer Düsseldorf on 2 November 2010, at the same time as the "K 2010" fair.

This event, organised jointly by the Welding and Joining Society (WJS) of The Welding Institute (TWI) and the German Welding Society (DVS), will provide a unique opportunity to discover the latest technical developments from industrial and academic experts. Areas covered will include new developments in laser welding, infrared welding, ultrasonic welding, and adhesive bonding; welding of thermoplastic tanks and pipes; joining of composites; testing of welded joints; and qualification of plastics welders.

The conference will be conducted in English.

Who should attend

This conference will provide an international forum for anyone involved in joining plastics, including processors, fabricators, manufacturers, design engineers and product developers.
